ILLUSTRATIVE TEXT FOR TESTING - NOT AN OFFICIAL RWANDA FDA DOCUMENT

GUIDELINES ON REGISTRATION OF VETERINARY MEDICINES
Version 2026-01

1. Target species and dose
The summary of product characteristics states each target species, the dose, and the route of administration.

2. Withdrawal period
For products used in food-producing animals, the withdrawal period for meat, milk and eggs must be stated on the label and in the package insert, and justified by residue data.

3. GMP certificate
The manufacturing site must hold a GMP certificate valid on the date of submission.
